

### About Miagen:

Miagen design Advanced Corporate Performance Management solutions giving complete insight into the true dynamics of operational performance and profitability.

Solutions which enable business leaders to be at the forefront of decision making and empowering management to increase corporate performance and profitability.

### Our Partners:

- **Adaptive Insights**, a Workday company, for cloud-based corporate performance management solutions (SaaS),
- **Dell Boomi** for cloud-based integration solutions (iPaaS),
- **Domo** for business intelligence tools and data visualization, connecting people, data and systems.

### Miagen product suite:

#### Leasegen

Providing the aviation leasing industry with a platform to manage their leasing portfolio FP&A, budgeting and reporting process.

#### Routegen

Managing airline route profitability and optimization, providing real time financial intelligence at a glance.

#### Seagen

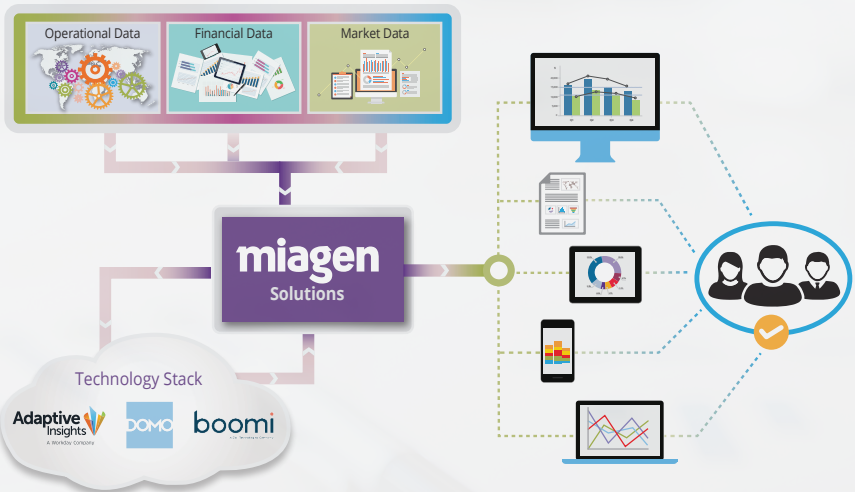

Complete forecasting, planning and analysis platform for the shipping industry.
